

Davis Vision's Value-Added Features

Our program goes over and above to offer many value-added features at no extra cost!

One-Year Breakage Warranty

All eyeglasses come with a breakage warranty for repair or replacement of the frame and/or lenses for a period of one year from the date of delivery. The one-year breakage warranty applies to all plan-covered eyeglasses (i.e., all spectacle lenses, Davis Vision Collection frames and national retailer frames, where our exclusive Frame Collection is not displayed).

Scratch-Protection Plan

Standard scratch-resistant coating is available for plastic lenses free of charge. Members may also purchase an optional scratch protection plan, which will replace scratched lenses with new lenses of the same material, style and prescription, at no charge (for a period of one year from the original date of dispensing).

Medically Necessary Contact Lenses

(Covered in Full, upon Prior Approval)

When "medically necessary" contact lenses are prescribed and approved to correct a member's eyesight, Davis Vision will cover the cost in full. Contact lenses may be determined as medically necessary in the treatment of the following conditions: Keratoconus, Anisometropia, Corneal Disorders, Pathological Myopia, Aniseikonia, Post-Traumatic Disorders, Aphakia, Aniridia and Irregular Astigmatism. In general, medically necessary contact lenses may be prescribed in lieu of eyeglasses, when it will result in significantly better visual acuity and/or improved binocular function, including avoidance of diplopia or suppression.

Members are entitled to savings of up to 25% off the provider's usual and customary fees, or a 5% discount on any advertised special through our network of physicians and refractive surgery centers (some centers provide a flat fee equating to these discount levels).

Low Vision

With prior approval from Davis Vision, members who require low-vision services and optical devices are entitled to the following coverage, both in- and out-of-network:

Low Vision Evaluation: One comprehensive evaluation every five years, with a maximum charge of \$300. This examination, sometimes called a functional vision assessment, can determine distance and clarity of vision, the size of readable print, the existence of blind spots or tunnel vision, depth perception, eye-hand coordination, problems perceiving contrast and lighting requirements for optimum vision.

Low-Vision Aid: Maximum allowance of \$600 with a lifetime maximum of \$1,200 for items such as high-power spectacles, magnifiers and telescopes. These devices are utilized to maximize use of available vision, reduce problems of glare or increase contrast perception, based on the individual's visual goals and lifestyle needs.

Follow-up care: Four visits in any five-year period, with a maximum charge of \$100 for each visit.
